

Frederich ERNIGH / Anna Maria ?

Name: Frederich ERNIGH

Birth: ~1705 Switzerland ?
Death: 1771 Pennsylvania

Misc. Notes

Frederich ERNIGH (~1705 - 1771) & Anna Maria (~1705 - bef 1730)

CAUTION: This “Frederich ERNIGH” is NOT the ancestor of the Arney family that includes me (Fred Coffey) as a descendant. OUR “Arney” line is introduced in a separate report, that you can read at this link:

[http://www.coffey.ws/FamilyTree/Docs/ARNEYJacobSr\(W\).pdf](http://www.coffey.ws/FamilyTree/Docs/ARNEYJacobSr(W).pdf)

Our “Arneys” descend from a Jacob Arney, discussed in the above report. This Frederich ERNIGH did have a son named Jacob, but it was an entirely DIFFERENT “Jacob”. Many of the descendants of his Jacob settled in the Bethlehem/Allentown area of Pennsylvania and used the surname “Erney”.

For some time, we thought that the Arney and Erney lines might have a MRCA (Most Recent Common Ancestor) back in Europe. But we now have DNA results that indicate they HAVE NO COMMON ANCESTRY!

Where did our original information come from? Stan Arney wrote an explanation as follows:

“Well, anyone researching the Arney's, has come across this quoted "source", the newsletters titled, "We Are The Arney's", by Ms. Edna Williams.

I, myself, had never read them, because I could never find any copies of them. However, recently I found a couple of people, who had copies of these newsletters. Since they seem to be, one of "the most quoted" sources, for Arney genealogy information, I really wanted to see what they were all about. I was hoping, they were actually research information that Ms. Williams had performed and was stating for others. However, as I read them, I began to realize they were not newsletters about her own research, but rather a compilation of "supposed" research by many individuals, who sent her, their information, and she simply quoted what was sent her, in her newsletters. Meaning, it's a compilation of "family tree" information, passed on to her. Whether or not, these individuals had actual documentation to "back up" their statements, is unknown.

So, what did “We Are the Arney’s” say?

According to "We Are The Arney's" volume 1, issue 1 - 1994, There are records of Frederich Ernigh and family coming to PA on board the "Pennsylvania Merchant" on Sept 11, 1732. The ship left Rotterdam, Holland with a stop in Plymouth, England. The record does not say where the Ernigh's boarded the ship. Frederich and wife Anna Maria had two children with them, but there seems to be no record of them once they arrived. It is possible that their names were altered to save confusion in the new world. The name seems to have evolved Ernigh / Earney /Erni / Arni / Arney. In Frederich's will made in 1771, Colebrooksdale, Berk County, PA, he lists five children:

- 1. Margaret (oldest daughter) m. Barnhard Zwietzich*
- 2. Elizabeth (youngest daughter) m. Abraham Dunglebarger*
- 3. Jacob (oldest son)*
- 4. John*
- 5. Michael*

The ship “Pennsylvania Merchant” carried German “Palentine” immigrants. Mostly they came from “The Palatinate” which was situated west of the Rhine and north of the French (Alsatian) border. Palentines may come from Germany, France, or Switzerland. They became the “Pennsylvania Dutch”, or more correctly “Pennsylvania German”.

Frederich ERNIGH / Anna Maria ?

I (Fred) am prepared to believe that much of the above is plausible, and probably correct. The big problem is that it doesn't connect to OUR Arney line. It appears a more correct title might have been "We are the Erney's!"

So, what do we know about the Erney family? I helped recruit the participation of a member of the Erney line, who was born in the Bethlehem/Allentown area in Pennsylvania, where there were MANY "Erney" people living. Mr. Denis Ronald Erney agreed to participate in y-DNA testing.

We made an effort to track down part of the "Erney" line, and following is my summary. The path down to Denis Ronald Erney is highlighted in red:
