

JAMES COFFEY GENEALOGY

This genealogy was compiled by Wayne D. Mower, 19 Ruby Dr., Claymont, DE 19703-1420. It was done to help a call for assistance from a Coffey descendant in the west and also to make some of the Franklin and Western Cumberland Co., Pa. families more readily available to researchers. It was compiled from genealogies written by several researchers, as well as original research of my own, so I cannot take credit for all of the information contained. Much of the information was obtained from family genealogies and may contain word of mouth information which was recorded herein as it was written, and still is under discussion by the families. Most of the information is documented as to where it was obtained. This is not written as an all encompassing authority on the Coffey families of the area. There seems to be another line or lines of Coffeys in Franklin and Cumberland Counties that may or may not be tied into these lines. Only time and further research will tell.

I wish to thank the following family researchers for the information they provided for this study:

27. Murl Black. Murl listed a birth date 12 Oct 1803. This is backed in a listing in the family bible of Daisy E. Coffey Snider which gave the same date. If as the obit says that Eliza was in her 68th year when she died is correct then this date should be 1804.

Verna and Fred always lived on a farm eight miles south of Dorrance. This quarter of land was given to them by Frederick's parents. Frederick's parents had nine children and gave each of them a quarter of land to get started. They had wheat, cattle and chickens. They spend many hours working the land but come Sunday, all work stopped and everyone went to church.

Many Sunday afternoons were spent at Coffey's Grove with Verna's family. Emma would play the piano and all would try to sing along. Then all went down to the grove, which was Roy's pride and joy. The whole afternoon was spent in swimming, playing croquet, baseball and all kinds of family games. Roy had a stroke in 1963. They then moved to Russell as the farming days were over, and he spent three years in a wheel chair.

Both of Verna and Fred's children were born on the farm. The doctor came out in a horse and buggy.

Joan and Fritz were never blessed with children, but they have a very spoiled dog. They owned and operated the Pladium Bowl for twenty-five years and then sold it and retired. They are both active in community projects and the church. They are both avid golfers.

During the summer of 1991, they took a nine week trip in their motor home to Alaska (12,000 Miles). They caught a lot of salmon and had a very memorable trip, but because of road conditions, they do not believe they would ever do it again.
