## Index

Ancestral Quest has generated index marks in this document that can be used to automatically create an index. However, you will still need to learn and follow instructions for your word processor to insert an index that will use these index marks. Incline Software does not have information on all possible word processing programs, so you will need to learn how to generate an index in whatever word processor that you use.

The following instructions are for Word 97. For other programs, consult their documentation for similar steps. Even if you use a different word processor, these steps from Word 97 may help you to get an idea of where to look for help with your word processor. (Some word processing programs, such as WordPad, will not generate an index.)

- 1) Put your text cursor where you want the index to appear (after these instructions)
- 2) From the menu, select Insert -> Index and Tables
