COFFEY GENEALOGY

The Coffey line originated in Ireland. The name Coffey goes back to the Gaelic Cobhthaigh or Cobhthach, meaning "victorious". The Irish came from the Celtic bands that roamed Europe in early times. It appears to have been settled very early. Irish chronicles tell of the reign of Eochy the First, 1000 years BC. Aristotle called it "Ierne", and Pliny called it Hybernia. The monarch Ollav Fola who reigned as Ard-Ri (high-king) about 1000 BC established a parliament. One branch consisted of the princes or chieftans. The second branch consisted of "Ollavs" - scholars, bards, law-givers, judges and historians. The third branch was of military leaders. The O'Cobhthaigh line is traced back to Olliol Flann Beag, King of Munster about 240 AD. In 803 AD Fergus Mos O'Cobhthaigh brought the leaders of the 3 most powerful warring clans of Eire - the O'Briens, O'Niels & McCarthys together at Tara, the ancient capitol. A treaty was signed, and Fergus was made supreme judge of Eire. This position was held hereditarily by the family for seven generations. The family coat of arms reflect this historical event.

Much of the material on the early Coffeys is from the book "James B. Coffey, Vol.II, Ancestors", by Marvin Coffey of Ashland, Ore. Also of great value was the print-out of the Coffey Genealogy by Jack Q. Williams.

First known record of Edward Coffey in VA appears in will of Edward Mosely dated 6 Jan.1699 in which he gives to his servant Ed Coffe a 2-yr. old heifer. On 10 Sep.1670 Edward Coffey received a judgement from the Mosely estate for his freedom, corn & clothes. He may have fled from the Williamite Confiscation in Ireland, and been transported by Edward Mosely. On 10 Mar. 1700, the will of Thomas Powell bequeathed one shilling to his daughter, Ann Coffey. It was witnessed by Edward Coffey. When his will was probated on 20 Nov.1716, his sons John & Edward Coffey concluded a land transaction for 200 acres on Occupatia Creek with John Mosely (son & Heir of Edward Mosely). One third of the land was set aside as a widow's dower for Ann Powell Coffey. John & Edward were not yet 16 on February 14 1715/6, but were when the will was probated 20 Nov.1716. Edward was a tobacco planter with land on branches of Occupatia Creek, Essex Co. At his death, an inventory of his estate listed a valuation of 45 lbs., 10 shillings & 9 pence. His will divided the land between sons John & Edward, and bequeathed a cow each to John & Marther, and all tenables to his wife Ann. It lists children John, Edward, Marther, Ann, Austes & Elizabeth.

Francis Place patented 300 acres on the north side of the Rappahannock River on 7 Sep.1654 for transporting 6 persons. His will dated 11 Aug.1655 conveyed the land & some cattle to his daughter Mary "when she arrives at 18 years". On 20 Sep.1666/7 she and her husband Thomas Powell sold this land for "9 barrells of good Indian corn and divers other considerations".

Marvin Coffey found there were at least 72 Powells in Virginia by 1666, and 10 of these were named Thomas. He concludes that "our" Thomas Powell is most likely the one transported by William Mosely in 1663.

CLEVELAND COFFEY

There were several Cleveland Coffeys of about the same age in Western North Carolina Cos. This one is from the Caldwell Co. 1860 census (family # 877). He appears to be living next door to William & Sarah Coffey (Cy-14b), (census family #876). His parentage is unknown at this time. He could be the son or grandson of Leah & Cleveland (s/Edward Coffey, Cy-2). We know both Jesse & Poley have descendants now living in the Avery Co. area. We would appreciate any information anyone can give us.

(Other possible children)

- F Jesse (several Jesse Coffeys in area)
- Jane Coffey (m. Joel Coffey Aug.1793 Wilkes Co. (may both belong to Chesley Coffey Family)
- Ann Coffey (m. Alexander McKinsey 28 Aug.1793 Wilkes Co. b. d.
- Sarah Coffey (m. James Coffey 30 Aug.1793 Wilkes NC) (may both belong to Chesley Coffey family, or he may be s/James Erwin & Elizabeth Cleveland Coffey - Cy-1, A3)
- Another daughter.

!!!!

There were many other Coffeys in the area, some of whom have been traced to a Peter Coffey who emigrated to Virginia. Several other Coffeys are also found in early immigration records, and quite likely had descendants in this area. There is a James Coffey in both Surrey & Pittsylvania VA records who had a son Anis - and may be the son of Annister Coffey (Cy-2).

CHESLEY COFFEY LINE

The antecedents of Chesley Coffey are not established. However the many similarities of movement, marriages, etc. suggest Chesley could be a grandson of Edward & Ann Coffey. Little is known of the descendants of Edward & Grace Cleveland Coffey or of Austin & Miss Chenault Coffey. He could be the son of either, or there might be other children of Edward and Ann Powell Coffey that are not known to us. There are several Chesleys mentioned in early Virginia records, and as maternal surnames were often used as given names, it could be that an unknown Coffey had married a Chesley. Little is known about the early life of Edward Coffey who married Grace Cleveland, except that he was 37-40 years old when he married Grace. He could easily have had a previous marriage which produced Chesley Coffey. Marvin Coffey, in his book, suggests the following children for Chesley & Jane:

THE COFFEY FAMILY COAT OF ARMS

The Coat of Arms (see frontispiece) consists of a shield, the surface (escutcheon) of which is green with a broad band (fesse) across the middle (either straight or chevron-shaped) in ermine between three covered cups (coons) which are gold. The green refers to a religious temperament, eternity, everlasting life, and fecundity. Gold is the metal denoting strength, authority and wealth, while ermine is the fur denoting judgeship or a judicial position.

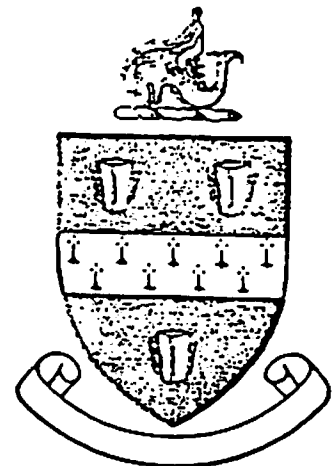

The coon or Celtic drinking cup was a very important charge. Since each treaty or agreement was sealed by a drink it became a symbol of friendship, honor and peace. The three cups in the Coffey arms allude to the peace of Tara, the great capitol of ancient Eire, between the clans O'Brien, O'Neil and McCarthy.

The motto, which can be translated "Not by Providence but by Conquest" or "Not Prudence but Victory", is a canting upon the name inasmuch as O'Cobhthaigh means "victory" or "conquest".

The mantle or decorative matter around the shield has no special shape. This is left to the taste and discretion of the artist. It takes its name from a cloak or mantle which the mounted knight wore suspended from his helmet. This mantle would become cut and slashed in combat and the knight was very proud of these rents.

The shape of the shield is also immaterial and left to the discretion of the artist. The one pictured to the right is one which is more commonly pictured in books on coats of arms, as for example, the book by MacLysaght.² The one figured in the frontispiece originally came from a tracing in the Office of the Ulster King of Arms (for Ireland) in Dublin.

The crest of the Arms shows a nude man riding a dolphin. The latter symbolized the sea and the naked man represented the family. This is another canting as the man riding the dolphin signifies conquest of the sea.
